#### **4. Education and Career Guidance (ECG) & Careers Day**

Education and Career Guidance (ECG) is about equipping students with the necessary knowledge, skills and values to make informed decisions at each key education stage for successful transition from school to further education or work, and hence to manage their career pathways and lifelong learning throughout their lives.

Through ECG, students will be encouraged to learn more about their own interests, abilities and passions. By exploring the learning or education pathways and career opportunities available across industries, ECG aims to guide students towards realising their aspirations, as well as embracing learning throughout their lives. Please visit <https://youtu.be/12ass4FSCcg> for the introductory video.

The MySkillsFuture portal for students is a one-stop ECG portal that empowers our students to embark on a journey of self-discovery and make informed education and career choices. Students may use the information and tools to explore various education and career pathways, and take charge of their future. The URL to MySkillsFuture portal for primary school students is [www.myskillsfuture.sg/primary](http://www.myskillsfuture.sg/primary). Form Teachers will be helping the students to activate their ECG account.

After going through the portal, you may wish to complete FTGP Book Page 16, 31 and 32 with your child/ward. This information may be shared with your child's / ward's form teacher in Term 3.
